U.S. Citizen | Open to Relocation | (609) 921-5878 | johanchuqui05@gmail.com | LinkedIn | GitHub

Education

Bachelor of Science – Computer Science **Expected Graduation: May 2027**
Rutgers University – New Brunswick *New Brunswick, NJ*

- **Minor:** Data Science
- **Concentration:** Software Engineering and Information Management
- **Coursework:** Data Structures, Design and Analysis of Algorithms, Databases (SQL), Software Methodology (Java, OOP), Computer Architecture (C), Regression Methods, Statistical Inference, Data Management for Data Science

Projects

Steam Game Success Prediction | Python, XGBoost, SHAP

- Built an end-to-end ML pipeline to predict commercial success of 40,000+ Steam games; applied K-Means clustering for market segmentation across 4 distinct game categories.
- Trained and compared Random Forest, XGBoost, and Logistic Regression classifiers; achieved a ROC-AUC of 0.95 on held-out data using XGBoost.
- Applied SHAP for model interpretability, identifying developer history and genre as top predictors of success.

Soccer Player Stats Analyzer | Python, Pandas, Matplotlib

- Analyzed 1.8M+ match appearances across European leagues to identify top scorers, assisters, and club performance trends from a dataset of 44,000+ players.
- Merged and aggregated multiple datasets to produce 4 data visualizations revealing insights on player statistics, country representation, and club goal production.

Braille-to-English Text Translator | Java

- Built a Braille-to-English translator out of personal interest in accessibility tech, implementing a binary search tree to efficiently store and retrieve character encodings.
- Developed parsing and translation logic across multiple methods, supporting dynamic addition and removal of symbols from the tree.

Experience

Robbinsville Bar and Grill **Jun. 2025 – Present**
Expeditor *Robbinsville, NJ*

- Coordinate food flow between kitchen and serving staff, ensuring accurate and timely delivery of orders during high-volume service periods.
- Manage quality control by verifying order accuracy and presentation before dishes reach customers.

Math and Science Learning Center – Rutgers University **Sep. 2023 – Present**
Front Desk & STEM Educator *New Brunswick, NJ*

- Deliver interactive physics and mathematics lessons to visiting elementary school students during university tours, promoting STEM engagement and representing the center to the community.

Skills

Languages: Python, SQL, R, Java, C

Libraries & Frameworks: Pandas, NumPy, scikit-learn, XGBoost, SHAP, Matplotlib

Tools: Excel, Jupyter, RStudio, R Markdown, Git/GitHub, MySQL, MongoDB, Linux/Bash

Analytics: Regression Analysis, Hypothesis Testing, ANOVA, Data Cleaning, Data Visualization, Machine Learning

Activities & Leadership

Sigma Alpha Mu – Sigma Delta Chapter **Jan. 2025 – Present**
Founding Father, Head of Recruitment, Standards Director *New Brunswick, NJ*

- Reinstated the Sigma Delta Chapter of Sigma Alpha Mu at Rutgers University alongside 12 founding members, working with national headquarters and university administration to reestablish chapter recognition.
- Spearheaded recruitment campaigns each semester, growing the chapter pipeline through outreach events and one-on-one engagement with prospective members.
